VOLCANIC MINDS

smart
fast
efficient

Volcanic Minds is a **digital experience company**.
Our ultimate goal is to create the best product for our partners.
How do we do that?

- *tailor-made* solutions
- CX / UX / UI design
- *web* and *mobile* applications
- devOps and system integrations
- strategy & CIO / CTO *as a service*

VOLCANIC
MINDS

VOLCANIC MINDS

The method

Strategy and design

We help our partners to plan their digital **future**. By beginning this journey side by side with our clients, we can turn the original vision into a winning strategy.

Digital Factory

We combine passion and determination. With precision and efficiency, our team crafts the technological ecosystems that turn the most ambitious ideas into concrete reality.

VOLCANIC
MINDS

Co-Management

Technical teams require experienced management. The co-management service guarantees the achievement of the result within the deadlines, while mantaining the highest degree of quality.

Tutoring

We work side by side with the technical team, leading it to a professional growth aimed at addressing the real needs of the project.

VOLCANIC
MINDS

It won't just *work*.
It will **amaze**

VOLCANIC
MINDS

Our strengths:
- **mobile-first** approach to the realization of hybrid apps
- **SEO-oriented** development
- attention to **details**, ensuring maximum **efficiency**

More than ten years of experience, with customers in multiple areas:

Banking and Finance **Manifacturing** **Advertising**

Digital evolution **Services for citizens**

VOLCANIC MINDS

Why you should choose us

Database — Mongo

Server-side logics — Node.js
- Firebase
- HubSpot
- PayPal

Corporate website — Vue.js
- Prismic
- Nuxt
- Analytics

iOS & Android apps — Cordova
- Videocall
- Firebase
- Freshchat

Admin panel — React
- Material UI
- React Admin

The partner ambitious project required the development of an entire system, including the corporate website, the customer's personal area, a dedicated mobile application and an admin panel for the internal staff. In addition, the design of the Customer eXperience interfaces, the APIs and a bespoke database.

We made use of the latest technologies and an automated deployment to the cloud, making the entire architecture **future proof**.
